EMS TRANSMISSION; 7/23/01
Instruction Memorandum No. CA2001-051
Expires: 09/30/02

To: Field and District Managers

From: State Director

Subject: Documentation of completion of evaluation of existing land use plans

This memorandum will serve as State Director concurrence of land use plan evaluations for the following existing land use plans:

Alturas RMP
Cinder Cone MFP
Mt Dome MFP
Tuledad MFP
Cowhead-Massacre MFP
Eastern San Diego County MFP
Willow Creek MFP
Cal-Neva MFP
Honey Lake MFP
King Range Mangement Plan
CDCA Plan

The preparation plans to revise or amend these existing land use plans have been approved and WO has released funds for FY 2001 to initiate planning. In developing the preparation plans, field offices completed a process equivalent to a plan evaluation. A separate evaluation exercise and report at this point would be redundant and likely provide no meaningful new information. Therefore, further documentation of plan evaluations of these plans will not be required. The NEMO, NECO, West Mojave, and Coachella Valley bio-regional plans will serve as an evaluation of the CDCA plan.

Field offices should include this memorandum in the files with the approved preparation plans and should enter completed units for each existing plan evaluated under workload measure DJ in MIS before the end of the FY.

Evaluations of the remaining existing land use plans in California must be completed by 9/30/02: CASO will work with the field offices involved on evaluation schedules for:

Sierra MFP
Clear Lake MFP
Hollister RMP
Arcata RMP
Bishop RMP
Caliente RMP
Redding RMP
